

PLANE PULL EVENT FLOW

Check-In

Team Captains hand in money, hand-in final team roster (maximum of 20), signed insurance waivers, receive and distribute T-Shirts and wristbands for team, Contest Rules, and get assigned a numbered Captain's Bib. Team Captain will not get his Bib until all of members of his/her team are present and checked-in as teams will compete in this order.

Captain must keep team together after check-in and wear the Captain's Bib once issued until their team has completed their competition. Wristbands must be worn at all times. Teams must be ready when called for escort to the Staging Area.

Team Staging Area

Team name and Captain's Bib # will be checked/recorded. All team members will be checked for wristbands. Teams will pull in Bib-number order so it's important to keep track of team names and Bib #'s. Teams will be escorted to the On-Deck Area when called.

Team On-Deck Area

Once all members are in the "On Deck" Area, they will be held until told to line up next to the jet for their Team Photo.

Team Photo

Photographer must ensure that Captain's Bib # and/or Team Name Sign is visible in each photo.

Rope Line Up

After team photo, they will be called to line-up in front of the jet along the Pull Rope for their Fastest Pull competition.

Fastest Pull (timed)

All team members pull the aircraft 12 feet. Results will be posted for each team after they compete.

Lowest Combined Weight Pull (2 minute time limit)

Team selects members to pull the jet for the Lowest Combined Weight Pull competition. Remaining team members must stand inside the LCW Stand-By Pen; individuals can go to help their team if called.

Weigh-In: Immediately, all members of the team who participated in the LCW Pull will be escorted through the chute to the Weigh-In Area, where they will be placed on the scale and weighed. Participating team members may not remove any clothing or equipment they wore during participation (such as gloves, shoes, belts, etc.). Once the LCW group has been weighed, all team members must have their wristbands removed and they must then leave the competition area and return to the spectator area. Results will be posted for each team after they compete.

Trophies will be awarded after all teams have competed, at approximately 2:00 pm, for the top three teams in the Fastest Pull and Lowest Combined Weight Pull competition. The top three teams in Fundraising will be recognized for their totals at check-in, however; trophies will be presented post-pull after all money has been received by SONJ.

Souvenirs available for sale all day!
