

Class 29- Independent Showmanship-like With Pattern and Inspection

The camera person stands at the Judge's marker and is the Judge/Judge's eyes. Judge gives the ok to the Handler to start. When the horse is set up for inspection, the camera person moves (to their left) around the horse, starting on the horse's right, in a circle slowly, like a judge would in an in-person show. The Handler should move in the quartering system crossover during inspection. Judge, during the walk around please ask the Handler two questions from below, your choice:

What is your horse's name?

What color is your horse?

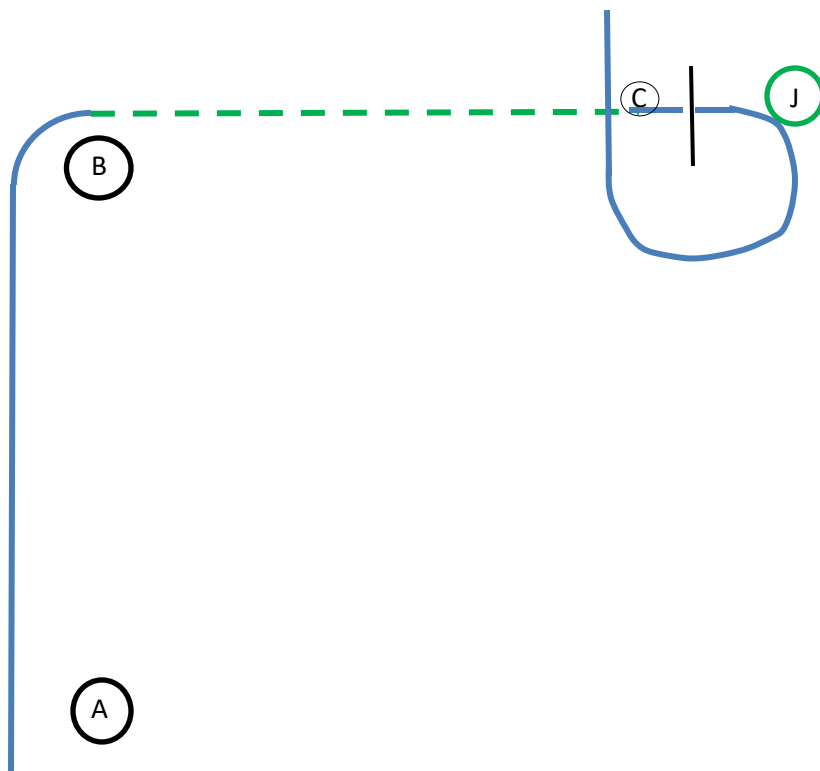

What does your horse eat?

How old is your horse?

What breed is your horse?

Is your horse a mare or gelding?

Dismiss the Handler after inspection.
